REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the prior art fails to suggest an inclined balancer housing with a discharge hole formed at the mating surface on the higher side of the housing and a hole above the mating surfaces on the lower side, as set forth in claim 1. The examiner has reviewed the proposed rejection in the International Preliminary Examination Report PCT/JP03/02765 and has concluded that there is NO reason why one of ordinary skill in the art would apply JP 10-159906 to JP 2001-140985.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
